Contents Volume 152

1 A concise survey of scheduling with time-dependent processing times
T.C.E. Cheng, Q. Ding and B.M.T. Lin
14 Super efficiency evaluations based on potential slack
P. Bogetoft and J.L. Hougaard
22 Continuous location of dimensional structures
J.M. Díaz-Báñez, J.A. Mesa and A. Schöbel
45 Mixed integer programming approach of extended DEA–discriminant analysis
T. Sueyoshi
56 Goal programming, regulation and generalised economies of scale and scope
M.J. Ryan
72 (p,r)-Invexity in multiobjective programming
T. Antczak
88 Fuzzy random bottleneck spanning tree problems using possibility and necessity measures
H. Katagiri, M. Sakawa and H. Ishii
96 A new heuristic for minimal makespan in flow shops with multiple processors and no intermediate storage
H.W. Thornton and J.L. Hunsucker
115 Hybrid flow-shop scheduling problems with multiprocessor task systems
C. Oğuz, Y. Zinder, V.H. Do, A. Janiak and M. Lichtenstein
132 No-wait flowshops with bicriteria of makespan and maximum lateness
A. Allahverdi and T. Aldowaisan
148 A threshold accepting metaheuristic for the heterogeneous fixed fleet vehicle routing problem
C.D. Tarantilis, C.T. Kiranoudis and V.S. Vassiliadis
159 The complexity of two-job shop problems with multi-purpose unrelated machines
Y. Mati and X. Xie
170 Solving a fuel delivery problem by heuristic and exact approaches
P. Avella, M. Boccia and A. Sforza
180 A fuzzy robust scheduling approach for product development projects
J. Wang
195 A multipurpose parallel genetic hybrid algorithm for non-linear non-convex programming problems
R. Östermark
215 The development of genetic algorithms for the finite capacity scheduling of complex products, with multiple levels of product structure
P. Pongcharoen, C. Hicks and P.M. Braiden
226 Technological advancement, learning, and the adoption of new technology
C. Chambers
248 A Petri net model of a continuous flow transfer line with unreliable machines
K. Sörensen and G.K. Janssens

doi:10.1016/S0377-2217(03)00583-6

263 Leveraging information in multi-echelon inventory systems
S. Mitra and A.K. Chatterjee
281 Supply-side collaboration and its value in supply chains
Y. Fu and R. Piplani
289 The sensitivity of the inventory model with partial backorders
P. Chu and K.-J. Chung
296 A note on 'bilevel linear fractional programming problem'
H.I. Calvete and C. Galé

301 Editorial: Feature Issue: New technologies in transportation systems
Y. Siskos and E. Sambracos
302 The application of information and communication technologies in transport
G.A. Giannopoulos
321 Motorway network traffic control systems
A. Kotsialos and M. Papageorgiou
334 A survey of customer satisfaction barometers: Some results from the transportation-communications sector
E. Grigoroudis and Y. Siskos
354 A DEA approach for evaluating the efficiency and effectiveness of urban transit systems
M.G. Karlaftis
365 Dispatching of small containers via coastal freight liners: The case of the Aegean Sea
E. Sambracos, J.A. Paravantis, C.D. Tarantilis and C.T. Kiranoudis
382 Design of an IT-driven decision support system for vehicle routing and scheduling
S.P. Gayialis and I.P. Tatsiopoulos
399 Applications of GPS technology in the land transportation system
G. Mintsis, S. Basbas, P. Papaioannou, C. Taxiltaris and I.N. Tziavos
410 Development of an expert system for the evaluation of conventional and innovative technologies in the intermodal transport area
C. Abacoumkin and A. Ballis
420 Towards the improvement of a combined transport chain performance
A. Ballis and J. Golias
437 Combination of geographical information system and efficient routing algorithms for real life distribution operations
C.D. Tarantilis, D. Diakoulaki and C.T. Kiranoudis
454 Sector modeling for the prediction and evaluation of Cretan olive oil
A. Migdalas, G. Baourakis, N. Kalogeras and H.B. Meriem
465 A GIS-based decision support system for planning urban transportation policies
G. Arampatzis, C.T. Kiranoudis, P. Scaloubacas and D. Assimacopoulos
476 Towards an integrated framework for forest fire control
M. Dimopoulou and I. Giannikos
487 Towards a decision support system for the ready concrete distribution system: A case of a Greek company
N.F. Matsatsinis
500 Risk transportation via a clique number problem formulation
G. Mavrommatis and J.-C. Panayiotopoulos
507 A heuristic algorithm for solving hazardous materials distribution problems
K.G. Zografos and K.N. Androutsopoulos

520 Solving a vehicle routing problem by balancing the vehicles time utilization
G. Nikolakopoulou, S. Kortesis, A. Synefaki and R. Kalfakakou

529 Editorial: Guest editor's introduction
R.V.V. Vidal
530 Problem structuring methods in action
J. Mingers and J. Rosenhead
555 Using soft OR in a small company—The case of Kirby
L. Sørensen, R.V.V. Vidal and E. Engström
571 Internet and technology new venture development using Soft OR
S. Gondal
586 Project review and learning in the construction industry: Embedding a problem structuring method within a partnership context
L.A. Franco, M. Cushman and J. Rosenhead
602 Implications of cell design implementation: A case study and analysis
S.S. Chakravorty and D.N. Hales
615 Cognitive mapping expert views for policy analysis in the public sector
C. Eden and F. Ackermann
631 Strategic development and SWOT analysis at the University of Warwick
R.G. Dyson
641 Avoiding academic and decorative planning in GHG emissions abatement studies with MCDA: The Peruvian case
P.C. Borges and A. Villavicencio
655 Exploring inter-organisational relationships in the health service: An immersive drama approach
J.W. Bryant and J.A. Darwin
667 Enhancing public participation in natural resource management using Soft OR—an application of strategic option development and analysis in tactical forest planning
C.N. Hjortsø
684 Community planning for rural education in South Africa
J. Phahlamohlaka and J. Friend
696 The impact of soft OR-methods on problem structuring
C. Joldersma and E. Roelofs
709 Scenario planning—lessons for practice from teaching and learning
F.A. O'Brien
723 Stochastic vendor managed replenishment with demand dependent shipment
E. Kim
745 Product introduction decisions in a duopoly
G.C. Souza
758 An exact algorithm for the identical parallel machine scheduling problem
E. Mokotoff
770 A returns policy for distribution channel coordination of perishable items
K.H. Hahn, H. Hwang and S.W. Shinn
781 Optimal procurement strategies for online spot markets
R.W. Seifert, U.W. Thonemann and W.H. Hausman
800 On the linearisation of reference technologies for testing returns to scale in FDH models
V.V. Podinovski
803 Contents Volume 152
